Re: RVAAP, Building 854 PCB Storage

Dear Mr. Cicero:

Upon review of documentation submitted by S. D. Myers on behalf of the U.S. Army Corps of Engineers, Louisville, Kentucky, and a site visit by this inspector on 5120199, it appears all cleanup and disposal requirements according to 40 CFR 761.125 of the PCB Spill Cleanup Policy have been accomplished regarding the closure of the former PCB storage Building 854 at the Ravenna Army Ammunition Plant, Ravenna, Ohio.

Based upon the above stated information, no further action regarding PCB cleanup at Building 854 is required.

If you have any questions, you may contact me at (614) 644-3607 or Kendal Moore, U.S. EPA Region V at (312) 353-1147.

Sincerely,

Tom Buchan
Environmental Specialist
